---

---

---

---

---

---

---

## With Thousands placed each year, should you not be in?

- 1. Get Training
- 2. Works with a seasoned Implant Doc
- 3. The GP is the best implant placed for
  - Standard cases.
- 4. Start slowly on single units: the most common implant case in dentistry
- 5. Get a CBCT: Guided surgery takes away the worry and upsets.

Implant mishaps:  
A prosthodontically Driven protocol

- Good Oral surgeon & has a cone beam in office
- GP was not consulted on the case
