

RAPID Database

“Our Role”

RAPID Conference

Mike Barnes
May 17th, 2016

Purpose

- Provide attendee's with "their" current utility RAPID Data information
- Identify and discuss existing Inter-Utility Sales philosophical differences and protocol
- Discuss importance and commitment
- Share success stories

Inter-Utility Sales Protocol

Existing Inter-Utility Sales Protocol document

- Do you and your staff know where it is and it's intent?
- Do you rely on e-mail as a sole means of communication when looking for material?

Supplier Spotlight

CURTIS WRIGHT
Flow Control Company
NOVA

Nova is the leading supplier of nuclear quality fasteners and machined products. When you combine this with our engineering services, standardization and inventory management capabilities to power generating facilities throughout the United States, Nova has a lot to roar about. The majority of commercial nuclear power plants have long-term alliances with Nova. And, we are a major supplier to the Department of Energy, OEM and A&E firms that support the nuclear industry. Why? Well in a business that can't afford mistakes, the Nova name is
