

FREE COMMUNICATIONS IN ENGLISH

Free Communications in English may concern any subject within the otorhinolaryngology.

Authors may submit only one Free Communication as a personal submission and another Free Communication as coauthor.

The number of Free Communications which will be accepted is strictly related to the planned Congress times and to the evaluation of the Referees.

Time allotted for oral presentation: 8 minutes + 2 minutes discussion

Deadline for Free Communication submission: 18 December 2015

Free Communication abstracts may be submitted only electronically.

How to submit Free Communication abstracts:

Click on "SEND YOUR ABSTRACT" to submit a Free Communication abstract. The names of the primary author and any coauthors must be shown, as well as the place where research was conducted.

The abstract text will have the following structure: "Introduction", "Materials and Methods", "Results" and "Conclusions".

Abstracts sent are not subsequently modifiable.
