

Anders Hultberg
Senior Vice President, Division Manager
Power Systems - Canada

Anders Hultberg has been Senior Vice President of the Power Systems Division in Canada since 2013. Anders joined ABB in 1995 and has held positions of increasing responsibility in Sweden and South America.

Prior to arriving in Canada, Anders was Senior Vice President of the High Voltage Products Business Unit in Sweden where he was responsible for several factories serving a global customer base, Research and Development, as well as the testing centers for product development. He also served as General Manager for the High Voltage Breaker and the Instrument Transformer Business Units.

Anders holds a degree in Power Systems Engineering from the Swedish Royal University and was a board member of the accredited Scandinavian Transmission & Research Institute (STRI).

Company profile

ABB (www.abb.com) is a leader in power and automation technologies that enable utility and industry customers to improve their performance while lowering environmental impact. The ABB Group of companies operates in around 100 countries and employs about 150,000 people.

ABB in Canada (www.abb.ca) employs 5,000 employees from coast to coast who are experts in their field of technology and contribute to ABB's industry leadership in key energy and industrial sectors across the country. Our company has been serving our Canadian customers for nearly a century with reliable energy efficient solutions for utilities, industry, buildings, infrastructure and transportation.
