

Lloyd A. Kirk

Mr. Kirk is an Environmental Programs Manager with the Oklahoma Department of Environmental Quality (ODEQ) with over thirty years of experience in the guidance of environmental, business development and risk management departments for major corporations and state regulatory agencies. Mr. Kirk manages the Brownfield's Section of the Land Protection Division where he oversees the State of Oklahoma's Brownfield's Program which involves the promotion of brownfield redevelopment, the Revolving Loan Fund, Targeted Brownfield Assessments and brownfield projects seeking Superfund and State liability relief.

Mr. Kirk has a Bachelors of Science Degree in Engineering Technology from Oklahoma State University and Masters of Science Degree in Management from Southern Nazarene University. Mr. Kirk's broad background and diverse education makes Mr. Kirk an invaluable member of the Brownfield's team for ODEQ as they assist entities in redeveloping Brownfield properties throughout the State of Oklahoma.
