

IPWEA NSW Supervisors Workshop

The purpose of the training is to provide some guidance for supervisors, works staff and young engineers in preparing, organising, managing, undertaking and completing works. It covers methodology in all aspects of the work with reference to legislation and regulations applicable to the task. The program also includes workshops for practical application.

Monday 5 September 2016

Tuesday 6 September 2016

Venue: Hilltops Council

Young Office, 189 Boorowa Street

Young NSW 2594

Cost:

Members: \$1259 + GST

Non Members: \$1436+ GST

Objectives

IPWEA NSW has produced a Gangers handbook for use by work supervisors and works staff, within local government, public works, constructions and contracting industries in city, urban and country environments.

It will also be of value to young engineers as they gain experience in the field. The handbook allows members of the workforce to learn what 'works staff' do and open up opportunities for workers seeking advancement in their careers. Encompassing such a broad range of activities, the handbook is written at a 'not-too technical' level.

Assistance of more qualified personnel should be sought as required.

The Gangers handbook will be the practical reference book used during the training,. A copy will be provided to all participants free of charge.

Who should attend?

- ▲ Field Staff
- ▲ Construction Engineers
- ▲ Works Officers
- ▲ Maintenance Engineers
- ▲ Young Engineers
