# 21 – 22 OCTOBER 2015

## ODENSE CONGRESS CENTER

# DENMARK

## The European Telemedicine Conference 2015

HIMSS Europe and our partners are pleased to announce the third edition of the European Telemedicine Conference (ETC). This year it will be hosted in Denmark and will combine the efforts of several leading European healthcare organisations into one powerful event. The conference will collaborate with prominent healthcare delivery organisations, governmental leaders, clinicians, researchers and university faculties to address and discuss the most pressing telemedicine and telehealth issues.

### ETC Research Track and Call for Abstracts

The ETC 2015 will not only consist of the regular ETC tracks but will also highlight research on health technology and telemedicine with a special conference track dedicated to presentation of research results. For this track researchers all over Europe are invited to submit abstracts to present their work.

### ETC part of WHINN

For this edition the ETC is part of WHINN – Week of Health and INNOvation. It will combine the efforts of several leading European Healthcare Organisations into one powerful event included into a unique week of health and innovation!
