

POSTER #12 - Taking Education in LTC to the 21st Century: It's Just a Click Away!

Tracy Luciani

Bruyère Centre for Learning, Research and Innovation in LTC, Ottawa, ON, Canada.

DESCRIPTION:

Long-Term Care Homes in Ontario are required to train and retrain staff on a list of mandatory topics identified in the LTC Homes Act, 2007. As a way of providing support to Homes across Ontario, the Bruyère Centre for Learning, Research and Innovation in LTC, in collaboration with Bruyère 's Learning Department, developed three bilingual eLearning modules on care practices that address some of the mandatory topics. A total of 7 modules were rolled out at Bruyère 's two homes over 1.5 years. This poster will provide the results and lessons learned from an evaluation on the implementation of online learning in these homes.
