

**Marc Mitges**

Vice President and General Manager  
Power Products Division - Canada

Marc Mitges has been responsible for the Power Products Division in Canada since May 2013. In this role he is responsible for ABB's Transformer, High Voltage and Medium Voltage businesses in Canada, as well as their related Service activities.

Prior to that, he held the role of Vice President and General Manager of the Power Conversion business unit for North America.

Marc's previous experience with ABB includes management roles in Service, Process Automation and Industrial Systems as well as Sales and Marketing responsibilities for industrial markets in Canada.

Prior to joining ABB, Marc held executive management roles leading manufacturing businesses with operations in Canada, the US, England and France.

Marc holds a degree in Electrical Engineering from McGill University in Montreal, an MBA in Strategic Management from the same school and completed the Executive Program in Finance & Corporate Strategy at the Massachusetts Institute of Technology.

**Company profile**

ABB ([www.abb.com](http://www.abb.com)) is a leader in power and automation technologies that enable utility and industry customers to improve their performance while lowering environmental impact. The ABB Group of companies operates in around 100 countries and employs about 150,000 people.

ABB in Canada ([www.abb.ca](http://www.abb.ca)) employs 5,000 employees from coast to coast who are experts in their field of technology and contribute to ABB's industry leadership in key energy and industrial sectors across the country. Our company has been serving our Canadian customers for nearly a century with reliable energy efficient solutions for utilities, industry, buildings, infrastructure and transportation.
