Dr. James “Jep” Paschal received his Bachelor of Science degree from Emory University in 1989 and his Doctorate of Medical Dentistry in 1993 from the Medical College of Georgia. He continued his education at the University of Texas Health Science Center at San Antonio completing a residency in Prosthodontics, a Master of Science degree in Biomaterials & Prosthodontics, and a General Practice Residency in 1997. Dr. Paschal maintained a private practice in Prosthodontics and Implant Dentistry for 5 years before returning for a residency in Orthodontics at the University of Rochester Eastman Dental Center.

- Past Member of the Board of Directors for the American Association of Orthodontists Foundation
- Past President of the GAO
- Past Member and Chairman of the Council on Communications for the AAO
- Current Member and Co-Chair of AAO Future Think Tank
- Volunteer Orthodontist with JP/HRo in Haiti

As a technology geek, Dr. Paschal strives to push new and emerging tech wherever he can to improve clinical, practice, and business efficiencies. Dr. Paschal currently maintains a private orthodontic practice in both Madison and Lake Oconee, GA.

Shifting Orthodontics…
with Saggital First™, Digital Technology, SLX Brackets or Clear Aligner Treatment

MONTREAL
November 30, 2018 - 8am-2pm
Courtyard Marriott Airport Hotel
7800 polce Robert Joncas,
Montreal, QC

TORONTO
December 1, 2018 - 8am-2pm
Delta Hotels by Marriot Toronto Airport
655 Dixon Rd
Toronto, ON

CALGARY
March 29, 2019 - 9am-3pm
Calgary Airport Marriott
2008 Airport Rd NE, Calgary, AB

VANCOUVER
March 30, 2019 - 9am-3pm
Fairmont Waterfront
900 Canada Place Way, Vancouver, BC

Aurum Ceramic (code# 208706) is designated as an approved PACE Program Provider by the Academy of General Dentistry. The formal continuing education programs of this program provider are accepted by AGD for Fellowship, Masterhip and membership maintenance credit. Approval does not imply acceptance by a state or provincial board of dentistry. The current term of approval extends from June 1, 2015 to May 1, 2019.

AURUM CERAMIC/CLASSIC DENTAL/SPACE MAINTAINERS LABORATORIES is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Space Maintainers designates this activity for 5 hours of continuing education credits.

DISCLOSURE: Cerum Ortho Organizers sells products relating to this seminar. Dr. James Paschal does not have any financial interest in the systems discussed.
Sagittal First™ Workflow Choices

Many of us are already leveraging the power of CBCT’s, intraoral scanners, CAD software, clear aligners, and brackets as tools for delivering state of the art treatment options to our patients. Instead of applying one orthodontic technique to all patients, orthodontics is now defined by how we select from a palette of multiple techniques and technologies and deliver unique solutions to each patient.

Satisfying not only their dental needs but also their lifestyle requirements during treatment.

Two years ago we began to implement the Sagittal First™ treatment philosophy. This approach has revolutionized how we deliver care to our patients and radically improved our treatment efficiencies by providing the following improvements to our practice:

- Up to a 50% reduction of treatment time in patients that need A-P correction.
- 75% reduction in the amount of chair time it takes to initiate orthodontic treatment.
- Improvement of patient compliance by shifting elastic wear to the beginning of treatment.
- Reduction in the total number of aligners per case.
- Reduction in the number of case refinements with aligners.

The Sagittal First™ approach combined with both clear aligners and brackets has enabled us to refine our practice workflows to a level that accommodates the vast majority of our treatment options for individual patients (see Figure 1).

Digital technology and Sagittal First™ are enabling us to accommodate a patient’s treatment objectives and desires with the goals of getting them out of braces in under 8-12 months and providing state of the art care.

In fact, this has caused a rethink on my entire practice. It has now become a practice goal to find ways to get all of our patients requiring brackets out of them in under 12 months and push technology to finish all of our patients in clear aligners. With this approach, we can target braces for what braces do best, and aligners for what aligners do best.

Upon completion of this lecture you will:

- Recognize the benefits of correcting the AP at the beginning of treatment
- Realize the treatment efficiencies related to the SAGITTAL FIRST™ Philosophy
- Challenge your view of the traditional orthodontic workflow
- Understand how technology can positively impact the Orthodontic practice
- Learn how to incorporate technology efficiently
- Recognize the future standard of care in the orthodontic arena
- Understand the benefits of obtaining a Class I Platform prior to clear aligner or fixed appliance therapy to reduce the number of Aligners needed and overall treatment times
- Be able to expand the number of Aligner cases treated and reduce interproximal stripping dramatically
- Learn the benefits of a Hybrid Approach to treatment planning

REGISTRATION FEES:

EARLY BIRD: (60 days in advance of course)
Doctor: $495.00
Team: $195.00

REGULAR REGISTRATION:
Doctor: $595.00
Team: $250.00

TO REGISTER:
Online: www.aurumgroup.com
Email: ce@aurumgroup.com
Phone: 1.800.363.3989

FEE INCLUDES: Course, light breakfast and lunch.
CANCELLATION POLICY: A full refund will apply to cancellations with 3 or more business days notice. Less than 3 days notice, will result in no refund.
