# Information Pack

How do I travel to Skukuza?

Skukuza is about 450 kms from the O R Thambo airport in Johannesburg and there are no direct flights from abroad into Skukuza. Travellers will have to look for connecting flights from OR Thambo (Johannesburg) or Cape Town International Airport.

The trip from Johannesburg to Skukuza by road takes about 5 – 6 hours and once a car enters the park, the speed limit of 40 km/h must be complied with which increases your journey time.

There are two airports close to the Kruger National park:

Airlink operates daily scheduled flights between Johannesburg and Cape Town to Skukuza Airport. The Skukuza Airport Management Company appointed Avis as the car hire service provider at Skukuza airport providing car hire and point 2 point shuttle service between Skukuza Airport and Skukuza Main Camp.

Alternatively, visitors use a connecting flight to Nelspruit Airport/Kruger Mpumalanga International Airport (MQP) in Mpumalanga. The road transfer from this airport to Skukuza is quite a distance and takes between 1 – 2 hours.

We therefore recommend that you consider to fly directly to Skukuza Airport from OR Thambo.

NOTE: **All you accommodation, flights and transfers, once you arrive in South Africa, may be booked through the conference website and conference vendor, AfricaMassive.**

What is the weather like during April?

April has lovely, clear weather and few clouds. The nights get a bit chillier but are still pleasant at about 18°C/61°F. Daytime temperatures are around 30°C/64°F and the humidity drops.

Does Skukuza have Wi-Fi?

Mobile phone coverage is only available at the big rest camps in the Kruger National Park. Wi-FI coverage is limited, Skukuza provides Wi-Fi at both the conference centre and restaurant.

What taxes do I have to pay?

Daily Conservation fees are applicable – R100 per person per day must be paid by accompanying persons. These taxes are included in the conference fees for delegates.

General information
