---

### **Biography**

Marc Tannenbaum is a technical leader at the Electric Power Research Institute (EPRI) who is currently working on reverse engineering guidance, an advanced commercial grade dedication seminar, and collection of data that can be used to automate the commercial grade dedication technical evaluation processes. Marc is responsible for EPRI's Joint Utility Task Group on procurement engineering as well as technical procurement-related projects addressing issues such as obsolescence, quality of procured items, and commercial grade item dedication. Mr. Tannenbaum is a member of the ASME NQA-1 Standard and Engineering and Procurement Processes Subcommittees, the Nuclear Supply Chain Strategic Leadership (NSCSL) Executive Committee, and the Nuclear Utility Obsolescence Group (NUOG) Steering Committee.
