**Biography of Dr. Allen Zimmerman**

At the age of seven, our speaker was selling greeting cards door-to-door. By age 14, he owned a small international import business. By age 21, he was teaching at the University of Minnesota, and during the next 15 years, he was selected as the “Outstanding Faculty Member” by two different universities.

At age 36, our speaker retired from teaching and opened his own speaking and training company. That position has allowed him to deliver more than 2000 programs, in 49 states and 22 countries.

Of course, you may already be familiar with Dr. Zimmerman. You may have heard him speak at another nuclear power facility or energy conference. You may have seen him on CNN or on the CBS Morning Show. And you may have read his books, several of which have become #1 best-sellers on Amazon.com.

Today, you can expect a powerful, practical program that really works. That is why our speaker has been inducted into the Speaker Hall of Fame, an honor that has only been given to a few people in the last 30 years – including Ronald Reagan and Colin Powell.

On the personal side, our speaker is a husband, a father, a biker and a hiker ... who has explored everything from the jungles of Thailand to the icebergs of the Arctic Circle.

**Presentation: Energy's Future Found in the Power of Partnership**

Success in today's world requires an extraordinary amount of people skills. You've got to know how to start and build relationships... on and off the job. And you've got to know how to work with others... so teamwork becomes a workplace reality rather than a hollow buzzword.

In this program, you will sharpen the tools you need to communicate more effectively, build relationships more easily, and get the cooperation of others more quickly. You will learn how to gain respect, present your ideas, minimize opposition, and resolve conflicts.

Expect to learn, to be engaged, and to make a difference when you return to your work or home.
