

ISP 74

THE 74TH MEETING OF ISP - ICHCA'S TECHNICAL PANEL

9 - 10 September 2015 | London, UK

Meeting schedule

Organised by

ICHCA
INTERNATIONAL

Hosted by

TT CLUB 
established expertise

WELCOME

Dear cargo industry colleagues,

ISP 74 is free to attend for ISP members. ICHCA members and qualified guests may also join as observers.

The 74th meeting of ISP takes place at **Thomas Miller (TT Club) HQ in London on Wednesday 9 - Thursday 10 September 2015** and provides a chance for the Panel to review and develop safety and good operational practice in cargo handling worldwide. Key topics on the agenda are expected to include container weighing, container lashing and securing, CTU packing, operations at the ship-shore interface and port equipment safety, among others. Lunch and refreshments will be provided.

ICHCA International is also hosting a practical one-day seminar on Container Weighing which takes place immediately after the ISP 74 Meeting, at Holman Fenwick Willan LLP on Friday 11 September. The seminar will bring all the interested parties together to discuss how the new IMO regulations on container weighing can be implemented with minimum disruption to the container logistics chain.

The seminar is timed just ahead of the 2nd meeting of IMO's Carriage of Cargoes and Containers (CCC) sub-committee in London, where the legislation was developed. As the leading NGO association representing the interests of global cargo handling, ICHCA International has been, and remains, deeply involved with IMO in developing the new legislation.

ABOUT ICHCA INTERNATIONAL

The International Cargo Handling Coordination Association (ICHCA), founded in 1952, is an independent, not-for-profit organisation dedicated to improving the safety, security, sustainability, productivity and efficiency of cargo handling and goods movement by all modes and through all phases of national and international supply chains.

ICHCA International's privileged non-government organisation (NGO) status enables it to represent its members, and the cargo handling industry at large, in front of national and international agencies and regulatory bodies. Its ISP Technical Panel provides technical advice and publications on a wide range of practical cargo handling issues, while its Technical Advisory Service provides members with recommendations on a wide range of cargo handling and transport issues, drawing on the experience and expertise of the ICHCA global member community.

ICHCA International operates through a series of autonomous national and regional chapters – including ICHCA Australia, ICHCA Japan and ICHCA Canarias/Africa (CARC) – plus Correspondence and Working Groups to provide a focal point for informing, educating, networking, shaping and sharing industry views to improve knowledge and best practice across the global cargo chain.
