# WELCOME

## DEAR PEMA MEMBERS & GUESTS,

We are delighted to announce details of PEMA's Autumn Members Meeting for 2015, taking place 26-29 October at the Westin Bund Center in Shanghai.

This will be the first time that PEMA has staged a meeting in China and represents yet another big step in fulfilling our Association's international remit, following our last two Autumn meetings in Malaysia and Dubai. The meeting will be an excellent chance to connect with our member company representatives based across China, as well as welcoming guests from the Chinese and North Asian port and terminal community. China and North Asia will invest heavily in port automation and advanced handling technologies over the coming few years to meet the demands of larger vessels and trade growth and this meeting provides a valuable opportunity to take stock of the industry's needs.

As traditional equipment manufacturing and high-tech innovation increasingly converge to help port and terminal operators improve their operational efficiency, PEMA continues to provide a unique forum for peer-to-peer dialogue and communication, as well as to engage with our customers and other key stakeholders. As usual, our Autumn meeting will provide plenty of opportunities for us to share experiences, challenges and goals, and to forge and strengthen the personal friendships that underpin our industry. I invite you all to book your place as soon as possible.

On behalf of the PEMA Board, we look forward to welcoming you to Shanghai.

Sincerely,

A stylized, handwritten signature in black ink, consisting of several loops and a long horizontal stroke at the end.

Ottonel Popesco  
President, PEMA
