

**POSTER #35 - Interactive Training Solution For LTC Homes**

Mike Miller, Ken Hudson

Loyalist College, Belleville, On, Canada.

**DESCRIPTION:**

Loyalist College has developed an online training platform for students, PSW's and Nurses. This platform was developed by faculty, administrators and staff in these areas integrating the theory and practice. The format consists of standard learning in the form of information followed by quizzes to assist learner in recognizing areas of weakness with interactive elements in a virtual environment demonstrating the learning in a virtual Long Term Care home. Many of the annual provincial training requirements for PSW's are met with these innovative tools that provide access 24/7 to assist homes in more effectively meeting the training needs of their staff. The nursing simulations provide similar practical elements for nurses.
