I, the patient/parent/guardian (delete as appropriate) give my consent for this material to be used for CRSA 2013. I have seen and read the material to be published.

I understand the following:

1. The material will be published without my name attached and every attempt will be made to ensure my anonymity. I understand, however, that complete anonymity cannot be guaranteed. It is possible that someone, for example, a person who looked after me if I was in hospital, or a relative, may identify me.
2. The material will be published in the CRSA abstract book and is mainly seen by doctors and scientists, but is also seen by some non-doctors and non-scientists including journalists.
3. If published the material will also be placed on the BSR website and/or e-learning platform
4. The material will not be used for advertising or packaging.
5. I also give consent for the following material to be used in other publications that may approach the BSR so long as the following criteria are met:
 - a. The material will not be used for advertising or packaging.
 - b. The material will not be used out of context – for example, a picture will not be used to illustrate an article that is unrelated to the subject of the photograph
