

ETHICON Training Village at E-AHPBA 2019

3 – 5 June 2019

Come visit us and register at the Ethicon | Johnson & Johnson Institute Booth #18

Please join us as our honoured guest in the invitation-only Training Village, sponsored by Ethicon, at the E-AHPBA 2019 Congress. The Training Village will feature Meet-the-Expert Sessions and Hands-on Training opportunities for surgeons.

Program Overview

Agenda

Monday, June 3

12:30 - 13:45 (Lunch Break)

Meet the Expert: Preventing and Managing Complications in HBP Surgery

16:00 - 16:30 (Coffee Break)

NeuWave Hands-on Workshop

Tuesday, June 4

09:45 - 10:15 (Coffee Break)

NeuWave Hands-on Workshop

11:45 - 12:30 (Lunch Break)

Meet the Expert: Science and Technique in Microwave Ablation

15:30 - 16:00 (Coffee Break)

NeuWave Hands-on Workshop

Wednesday, June 5

12:30 - 13:45 (Lunch Break)

Meet the Expert: Lap Pancreatic Surgery from Surgical Techniques to Consensus Guidelines

Location

Ethicon Conference Booth #18

Language

English

Faculty

Dr. Luca Aldrighetti (Italy)

Prof. Mohammed Abu Hilal (U.K.)

Dr. Anja Lachenmayer (Switzerland)

Meet the Expert: Preventing and Managing Complications in Laparoscopic Liver Surgery - Prof. Mohammad Abu Hilal, Dr. Luca Aldrighetti

During this session, surgeons will have the opportunity to learn from one of the pioneers in laparoscopic liver surgery and engage in practical discussion based on patient cases illustrating complications and how to manage them. The session will also discuss the scientific principles behind different energy device options as well as bleeding situations and solutions.

Meet the Expert: Science and Technique in Microwave Ablation -

Dr. Anja Lachenmayer

During this Meet the Expert Session, surgeons will have the opportunity to learn and engage in practical discussion regarding the latest advances in minimally invasive treatment of non-resectable liver tumors. NeuWave Medical® Inc microwave ablation will be introduced, as well as proper patient selection guidelines and ablation techniques.

Meet the Expert: Lap Pancreatic Surgery from Surgical Techniques to Consensus Guidelines - Prof. Mohammad Abu Hilal

During this interactive video teaching session, surgeons will have the opportunity to learn tips and tricks of laparoscopic pancreas surgery from one of the pioneers. The participants will also be able to learn about the work of the newly formed International Consortium on Minimally Invasive Pancreatic Surgery (I-MIPS).

NeuWave Hands-on Workshop - Dr. Anja Lachenmayer

During this practical session, surgeons will have an opportunity to learn about the practical and technical aspects of using the NEUWAVE™ microwave ablation system for image-guided soft tissue ablation. Participants will be able to experience multi-probe synchrony, evaluate technical success of procedures through Ablation Confirmation Software, and understand how probe migration may be reduced through Tissu-Loc™ technology.

Registration

Sign up online or visit the registration desk at the Ethicon Conference Booth #18 to secure a seat at one of our training sessions. All courses are free of charge.
