## Top Reasons for Transfer to Hospital

- Falls
- Respiratory
- Genitourinary
- Gastrointestinal
- Cardiovascular
- Injuries to the Head

# Implementation

- Phases I-V
- Starting with adopting an Excel sheet for tracking/trending transfers to ER
- Implementation of simple documents (SBAR, STOP and WATCH tool, etc)
- Prioritize the Algorithms based on the 5 top reasons for Residents transfers

# Challenges & Opportunities

- Excel sheets – there is a variety already in use in the different LIHNs
- Education to everyone
  - Directors of Care/Associated Directors of Care
  - Nurses/Unregulated Care providers
  - Physicians/NP/Clinical Nurse Specialist
  - Interdisciplinary care team
- Adoption of Algorithms by Physician/NPs
- Getting everyone involved
- Costs...
