

Redox markets a range of close to 1,000 different organic and inorganic raw materials, sourced from leading manufacturers throughout the world. Our products are supplied to 140 different industries throughout Australia, New Zealand, Malaysia and the United States. Whatever your chemical raw material or ingredient need, Redox can help.

Our dedicated team of more than 300 employees operate from eleven sales offices across the region, with more than 50 convenient storage locations. Redox is well placed to source and supply an extensive range of chemical products. Let us be an integral part of your sourcing strategy.

Starting as a small trader of speciality products in 1965, Redox has grown to become one of the largest privately owned chemical raw material importers and distributors in the Asia Pacific region.

A growing business with sales revenue of \$486.5m in 2015, our target is \$1 billion in 2020. Redox looks for long term partnerships, where shared values and common goals align for mutual benefit. Our relationships are open, innovative and based on teamwork.
