

European Connected Health Alliance

The Global Connector

"Bringing needs and solutions together for the future of health"

Join our Global Community

A powerful force for change in the delivery of health and social care – we can achieve so much more by working together.

Global Reach: 40+ countries, 600+ member organisations, 16,500 contacts

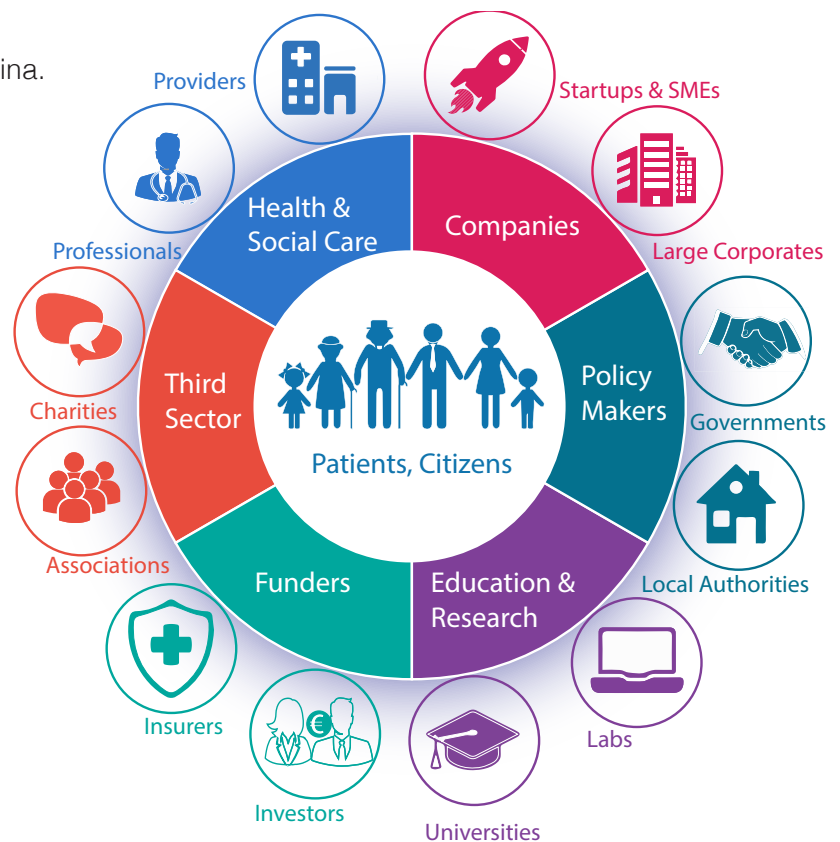

We support our members to facilitate collaborative working and bring about meaningful change in health and social care. Membership is available at a range of different levels and associated benefits to suit your organisation.

ECHAlliance Connected Health Ecosystems

ECHAlliance connects 20+ Connected Health Ecosystems across Europe, USA, Canada and China.

Ecosystem basic principles:

- Defined geographic zone
- Permanent Multi-stakeholders community with regular meetings
- Shared strategy and action plans
- Lead with the need
- Identify solutions
- Focus on deployment and implementation
- Members of the International Network

The European Connected Health Alliance is a membership organisation committed to creating and strengthening partnerships that together drive change in the quality and efficiency of health and social care.

To join ECHAlliance or to learn more about member benefits visit our Connector Platform, or get in touch by email: membership@echalliance.com - we'd be delighted to have a chat.
