The LLLB aged care reforms require significant change to both business and financial strategies for aged and community care providers. This Forum is designed to address both the financial implications and an opportunity under the user pays principles underpinning the reforms. It is intended that most presentations will include practical information on how to implement the financial aspects of reforms to ensure quality service delivery, financial viability and sustainability. The Forum is designed for both residential and community aged care providers in the not-for-profit sector. Topics will be of interest to Directors, CEOs, CFOs, finance managers, accountants, administration staff, directors of care and business development managers.

This Forum will explore the current and future direction of finance issues in the sector.

We invite you to join us to explore this essential and rapidly changing aspect of our sector.
