

PEER CIRCLE ON DISASTER
RECOVERY + FEDERAL POLICE
- IDEAS FOR CHANGES ①

→ require more staff
at state level for
hazard mitigation

→ stronger complaint
process for enforcement
when cities violate their
own hazard mitigation plans

→ understand/research
how often Hazard Mitigation
~~plans~~ funding doesn't
go to most-impacted
communities - Open FEMA
data

DISASTER RECOVERY ②
→ need a stronger
political/voter education
demand on state +
federal officials on
alternative mitigation +
climate change - not
just making political
issue post-disaster.

→ alternative strategy
around rebuilding
housing / extending
federal funding in
floodplains
→ make HUD Cap Plan +
FEMA Hazard mitigation
process.
