

POSTER #20 – Changing the Culture of Responsive Behaviors

Emily Dillman' Debbie Allen

Leacock Care Centre - Jarlette Health Services, Orillia, ON, Canada.

DESCRIPTION:

The Jarlette Core purpose is “to make an outstanding difference in the lives of others”. It is because of this that Leacock Care Centre (as well as Jarlette Health Services Corporately) noted the need for increased consistency of behavior management within the home. Through this increase recognition of deficiency in service, the Responsive Behavior Management committee was formed.
