CTU PACKING - A MATTER OF CONCERN FOR ALL OF US

**Dear cargo industry colleagues,**

A very warm welcome to the third in the series of CTU Packing Roadshows, organised by ICHCA International in partnership with the Responsible Packaging Management Association of Southern Africa (RPMASA).

After three years of development the new IMO/ILO/UNECE Code of Practice for Packing of Cargo Transport Units (CTUs) has now been released. Extensively revised and upgraded from the original 1997 CTU Packing Guidelines, the new Code has implications for everyone involved in CTU logistics, whether moving general cargo, refrigerated or dangerous goods, by road, rail or water, in containers, swap bodies, road trailers, tankers or rail cars.

**As part of ICHCA's "Pack It In!" campaign for safe packing of CTUs, the CTU Packing Roadshow offers practical education and advice on the contents of the new Code, its impact, and how its new guidelines can be adopted into supply chain operations.**

The day will include talks by an expert panel of speakers plus brainstorming workgroups, where you can have your say on key questions around disseminating the Code and training and educating packers.

As the leading NGO association representing the interests of the global cargo handling industry, ICHCA International has been deeply involved in the consultation process with IMO, ILO and UNECE. We look forward to seeing you at what promises to be a lively and informative day.

### About ICHCA International

The International Cargo Handling Coordination Association, founded in 1952, is an independent, not-for-profit organisation dedicated to improving the productivity, safety, security and sustainability of cargo handling and goods movement by all modes and through all phases of national and international supply chains.

ICHCA International represents its members, and the cargo handling industry at large, in front of national and international agencies and regulatory bodies, including IMO, ILO, UN ECE and others. It operates through a series of autonomous national and regional chapters - ICHCA Australia, ICHCA Japan, ICHCA Canarias/Africa (CARC) - to provide focal points to educate industry leaders and share knowledge.
