# SISG Master Class Workshop

## From Vision into Action

ECIS Leadership Conference *Designing on Purpose* | Rome, Italy | 31 March 2016

### Leadership, Strategy, and Decision-making

As a leader in today's dynamic global environment, you depend on your ability to manage people and complexity. Information technology provides so much data that finding answers to external and organizational challenges are often obscured rather than facilitated. Sound judgment and courage in the face of change is essential as is the ability to cultivate resilience, flexibility and innovation.

### Who should attend? And why?

This workshop is ideal for both aspiring leaders and established leaders who want to excel and develop their mindset, attitude and behaviors. Why? To develop your ability to sustain lasting working relationships that build trust and encourage collaboration; increase your success in recognizing and dealing with challenging situations and thriving in multiple cultures; and enhance your ability to think strategically to solve complex problems.

### SYNOPSIS

This workshop will provide you with the opportunity to assess the quality of your strategic thinking, the framework of your leadership and the process through which your decisions are reached. We will explore different ideas about what exceptional leadership means and examine the strategies to achieve it.

### *The workshop will be highly interactive and will look at:*

- Developing and sustaining a consistent value system for your school
- Advancing your unique qualities and talents
- Motivating and bringing out the best in others
- Creating a compelling vision for the future
- Thinking and acting strategically
- Consistently achieving objectives and goals
- Increasing your drive and purpose
- Fostering lifelong skills and expertise
- Successful Models & Attributes of decision-making
