**BELGIAN HEART
RHYTHM MEETING**

Dear Colleagues,

The Belgian Heart Rhythm Association (BeHRA) is pleased to announce the

**6TH BELGIAN HEART RHYTHM MEETING
“ARRHYTHMIAS FOR EVERY CARDIOLOGIST”**

Thursday 4th and Friday 5th October 2012

to be held at the Sheraton Brussels Airport Hotel and Congress Centre.

This meeting is specifically designed for all cardiologists and welcomes yearly over 500 participants.

Every cardiologist has patients with rhythmological problems and an increasing interest is seen amongst non arrhythmia specialists for arrhythmia related issues. Our aim is to share expertise on the various diagnostic tools and therapeutic possibilities available to cardiologists when deciding upon which approach best serves your arrhythmic patients.

This meeting, organised in the heart of Europe, will provide a balanced programme with clinical cases and discussions on how to manage the everyday patient. Renowned national and international speakers will present state-of-the-art lectures, case-based discussions, abstracts and posters. Practical issues will be discussed in relation with the most recent guidelines about all fields of arrhythmia i.e. the use of defibrillators, pacemakers, telemonitoring, drug management including anticoagulation for atrial fibrillation...

We look forward to welcoming you to the **6th BHRM on 4th and 5th October 2012 in Brussels!**

Sincerely yours,

Ivan BLANKOFF

Cocktail and Dinner at the Academy Palace

On the occasion of the 6th Belgian Heart Rhythm Meeting, the organisers will be honoured to welcome participants for cocktail and dinner at the Academy Palace, which among other academies, hosts the Royal Belgian Society of Medicine.

This neoclassical palace and its handsome stables were built between 1823 and 1828 for Prince William of Orange in recognition of his brilliant action on the field at Waterloo, from funds granted by the nation. The family of William of Orange and his princess, Anna Pavlovna, sister of tsars Alexander I and Nicholas I occupied the palace until the Belgian Revolution of 1830 forced them to flee to the Netherlands.

From 1830, the Palace was under the authority of the newborn Belgian State. The public was allowed to tour the Palace and its interiors were considered the most sumptuous that had ever been seen in Belgium. In 1842 the building was officially ceded to the State of Belgium.

After having been refused by the Duke of Brabant when offered to him in 1853, the Palace remained in use for public festivities.

By a royal decree of 30 April 1876, the Palace was put at the disposal of the Belgian Royal Academy of Sciences, Literature and Fine Arts and in 1966, King Baudouin gave the building to the Academy.
