The Systematic Alpha Multi Strategy Master Fund, Ltd. ('SAMSF') is a professional fund incorporated in the British Virgin Islands. SAMSF trades a highly diversified futures program that aims to generate consistent absolute returns that have low correlation to any major equity, bond, currency, hedge fund or CTA indices. To achieve its objective, SAMSF employs a mix of uncorrelated short-term directional momentum/trend-following models and market-neutral mean-reversion models, using fully automated, around-the-clock electronic execution in a wide range of the most liquid financial and commodities futures markets. The program is developed by a highly qualified team of theoretical physicists, mathematicians, and computer scientists using the latest advances in data collection, analysis and
