

Company Profile

Conco Systems Pty Ltd is the Australian contingent of a world wide group of companies providing unparalleled Heat Exchanger services. Conco Systems Pty Ltd specifically captures the Australian, New Zealand and South East Asian markets.

Established in 1999 Conco Systems Pty Ltd offers over eight years of local experience and also benefits from over 83 years of shared experience which can be leveraged from the founding American company Conco Systems Inc. From humble & modest beginnings the Conco group has grown from strength to strength and has developed into a mature set of companies that are highly respected by their world wide customer base.

Conco Systems has developed unique, niche products and services targeted at the Petro Chemical, Petroleum Refining and Power Generation Industries. These products and services contribute to increased efficiency, safety, operational reliability and predictability as well as green house gas (CO₂) emission reductions.

Conco Systems stands alone as industry's only single source for the supply of heat exchanger services such as;

- Tube Cleaning (Shooting & Drilling)
- Tube Plugging
- External Cleaning (Fin Fan Banks)
- Non Destructive Testing (Eddy Current and Iris)
- Leakage Detection (Tube and Air inleakage)
- Deposit Analysis
- Tube Replacement
- Tube Bundle Manufacturing

Conco Systems has as a commitment to quality, safety and environmental awareness in the provision of all its products and services, and this is emphasized through industry's continued use of its exclusive products. The highest levels of customer satisfaction are derived through the development of strong partnerships and professional dealings with emphasis on honesty, commitment, loyalty and efficiency.

The Conco Systems Mission Statement;

"To bring to market quality heat exchanger and condenser products, services, knowledge and technologies which provide efficiency and reliability returns to the customer whilst returning value to our stakeholders and the environment."

Strong management and dedicated employees support our field service teams to contribute to the advancement of Conco Systems in an organized and sustainable manner. This will result in sound growth, strong financial performance and longevity.
