DESCRIPTION:

The Long-Term Care Best Practices Toolkit, 2nd edition is a free online repository of evidence-based resources and tools to assist LTC homes to develop, implement and evaluate programs. Topics include the relevant RNAO BPGs that correspond with required and care delivery programs. Resources were selected from regulatory, legislative and professional sources including College of Nurses of Ontario practice standards and guidelines, applicable Ontario legislation and resources from leading provincial and national organizations. The LTC Toolkit second edition is being launched in the fall of 2015. It features additional best practice topics, streamlined access to new resources, French language resources and improved search and site navigation.
