PSMA sponsorship announcement highlights industry support for Locate14

One of the leading geospatial organisations, PSMA Australia, has shown their support by becoming a silver sponsor at the inaugural **Locate14** Conference.

“PSMA Australia, a long-time advocate of a single national spatial conference, is proud to be supporting the industry as part of the formative spatial industry event, Locate14. Not only does Locate14 offer our organisation important exposure, it provides the spatial information industry an opportunity to present itself in a unified way with the critical mass necessary to create influence.” - Dan Paull, CEO of PSMA Australia.

Locate14 Conference and Exhibition replaces three previous national events – the *spatial@gov* Conference, the Surveying & Spatial Sciences Conference (SSSC) and the Asia- Pacific Spatial Excellence Awards (APSEA) – combining to form a single premier Australian and New Zealand industry event that will provide a forum to connect with industry leaders and to learn about new advancements in the industry, IT and government.

The Conference will be held at the National Convention Centre in Canberra from 7-9 April 2014. There is a great range of sponsorship and exhibition opportunities for those wishing to showcase their products and services at **Locate14**. The sponsorship and exhibition prospectus can be viewed through the conference website www.locateconference.com. To discuss options or for more information you can contact sponsorship@locateconference.com or call 07 3848 0089.
