Connected Intelligence: Hitachi Visualization

Public Safety

VIDEO ANALYTICS

BIG DATA ANALYTICS

EVIDENCE MANGEMENT

OUTCOMES

- Use live situational awareness and tactical intelligence
- Collaborate more easily among agencies
- Reduce labour and increased effectiveness

SOLUTION

- Centralize real-time analysis and visualization
- Adaptable to ingest numerous data sources
 - Video, social media, sensors, GPS
- Evidence management from ingest to analysis

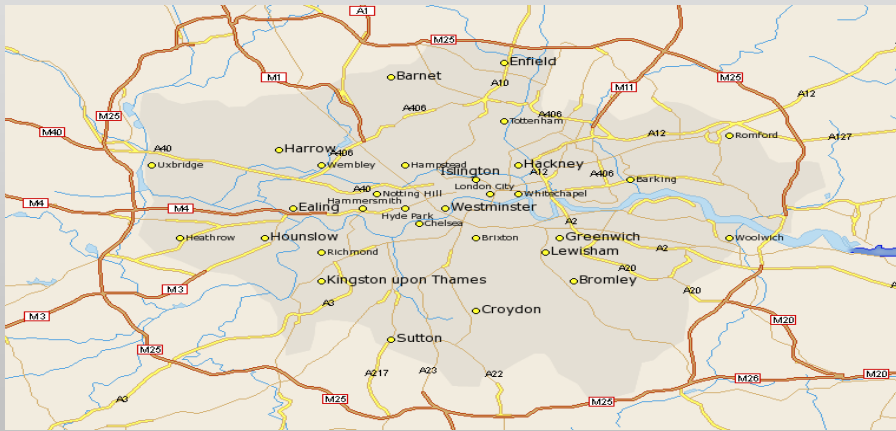

Connected Communications: Hitachi Live Insight for Telecom

HITACHI
Inspire the Next

OUTCOMES

- Dramatically improve network visibility and efficiency, while lowering costs
- Improve service assurance, quality and end-customer loyalty
- Create new revenue streams, such as premium data services

SOLUTION

- Carrier class analytics uniquely designed for real-time analysis and adaptive learning
- Benefits in network operations and business opportunities
- Huge ROI and improved customer experience

UK - Intercity Express Program (IEP)*

HITACHI
Inspire the Next

- Hitachi Social Innovation
 - Multiple Hitachi divisions: Social benefits for UK society including technology, environment, better access to major cities etc.
- **BIG DATA** Innovation Model: **Train-as-a-Service**
 - The UK Network Rail System will only pay Hitachi for “on service time” (Hitachi owns and maintain the trains)
 - **Real-time analytics process**

* **\$8.8 billion contract**

The Foundation for Connected Healthcare: Hitachi Clinical Repository

Clinical Data Exchange

**AGGREGATED
DATA**

**BIG DATA
ANALYTICS**

**EVIDENCE BASED
MEDICINE**

OUTCOMES

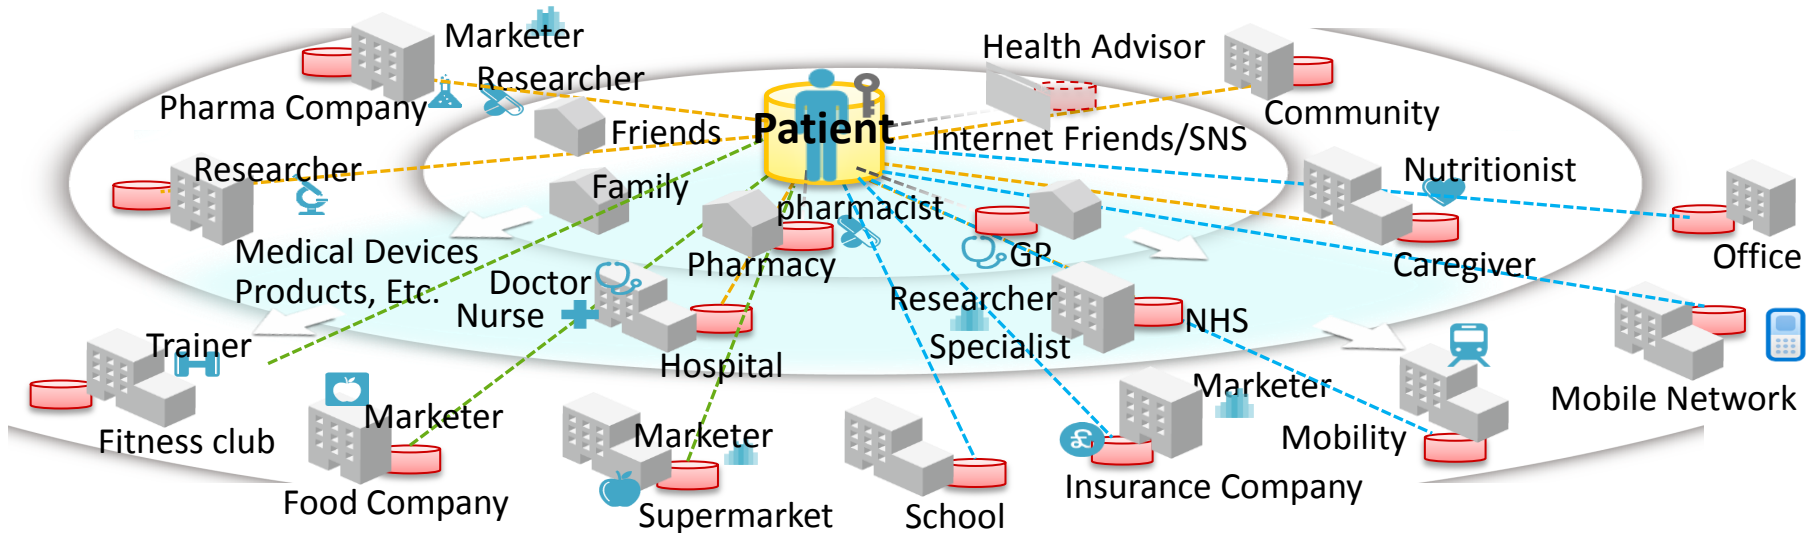

- Improved treatments & detection of chronic disease
- Reduce healthcare costs
- Provide better patient outcomes

SOLUTION

- Aggregation of unstructured patient content
- Enriched with metadata, standards-based workflow
- Highly scalable, long-term, active archive

Eating habits action plan 🍴 **Activity habits action plan** 🚶

| | |
|---|--|
| I will reduce my cake by 1 piece at 15:00 | I will walk for 10 min longer everyday |
| I will reduce my chocolate by half bar at 15:00 | I will garden for 30 min once a week |
| I will reduce my bread by 1 slice at 07:00 | I will swim for 30 min once a week |

- ✓ Clinical knowledge applied to the patient's condition
- ✓ Evidence based medicine applied to decision support
- ✓ Personalized healthcare for each individual

Hitachi, Salford Royal FT, Salford CCG, and NWEH partnership to target diabetes

Submitted by administrator on 5 December 2014 - 10:42am

Treating type 2 diabetes costs the NHS £8.8bn each year and despite being largely preventable its prevalence continues to increase. In Salford, one in ten men over the age of sixty has diabetes. A major driver for the development of diabetes is obesity which markedly increases the risk of developing the disease.

In partnership with Hitachi, Salford Royal FT, and Salford Clinical Commissioning Group (CCG), NorthWest EHealth is set to deliver a game-changing telecare service across the Salford area that will target people at the pre-diabetes stage, when they present with impaired glucose regulation (IGR).
